CODIS INTERFACE

The CODIS-ACCESS interface with Basic Software Systems' Business Management Software Solution provides dealers with numerous dealer parts functions including providing parts Pricing and Availability, submitting parts orders, order search and order status information.

features

- Parts inquiry and orders all from ONE interface
- Real-time access to see customer specific pricing, parts availability, supersession information and order status of desired parts
- Dealers have information at their fingertips 24/7
- Does not require a separate window for Persona
- Distributors receive orders electronically, drastically reducing errors and mistakes commonly found in faxed or phone orders - avoid double order entry for dealer in their business system

These valuable tools are of great benefit to dealers and will provide information quickly and easily and meet your CODIS Distributors' technology requirements.

Why BASIC?

CUSTOMER SUPPORT

We back up our products with trained customer support personnel. We believe in putting our customers' needs first and foremost. We offer a competitive support package that is envied by our competitors.

DATA CONVERSION

We provide a wide range of specialized data conversion programs that allow existing information to be transferred over.

HELP RESOURCES

Within our products, you can find various ways to obtain help including an online knowledge base, searchable help, and how-to-movies.

REPUTATION

Since 1979, BASIC Software has been known for our dedicated and unsurpassable service. We have clients all across USA, Canada, and Puerto Rico as we are known as a leading provider of business systems in the industry.

INTEGRATION

Our products are designed to completely integrate together which will enable your company to maintain pertinent information at all times.

SCALABILITY

Do you have multiple store locations? No problem! There are no limits to how many locations you can have on our system.

WE NEVER STOP!

As technology and customers' needs change, so do our products. We offer numerous enhancements and upgrades throughout the year, customized for individual dealers.
